

# SOC Managed MDM Endpoint

## Secure your Endpoint & Mobile workforce

The Digicel Business Protect MaaS360 service couples people, process, and best-in-breed technology. Featuring IBM® MaaS360® is a unified endpoint management (UEM) solution that transforms the way that organizations support users, apps, content, and data across every type of device. Its open, cloud-based platform integrates with preferred security and productivity tools, allowing modern business leaders to derive immediate value.

### Wide-ranging AI capabilities

The only UEM platform that leverages AI to deliver contextually relevant security insights for administrators and end users – enabling them to be more productive across the entire enterprise.

### Best-in-class SaaS

Speed up time-to-value with the industry-leading cloud-based approach to UEM. Its open platform enables extensive integrations with your existing infrastructure and apps from leading vendors.

### Threat detection and response

Going by the stats, at least one of your devices is currently infected or compromised. MaaS360's enterprise-grade threat defense can detect and automate remediation on your network and across all your apps and devices.

### Digital trust across all devices

Knowing how employees are using their devices and apps is a direct path to business transformation. Deliver a frictionless pathway to user productivity, and keep their devices, data, and apps secure with built-in identity and access management (IAM).
